

WIN 8-MILE FRONT ON AISNE RIVER

ROADS OBJECT TO TERMS OF FEDERAL LEASE

Want Right After War to Litigate for Unprovided Losses

M'ADOO SURE THEY WILL SIGN

Meeting Next Wednesday in New York to Consider Resistance

WASHINGTON, Sept. 5.—Terms of the standard contract between the government and railroad companies today by Director General McAdoo after months of negotiation with company representatives, show that most contentions of the Association of Railroad Security Holders have been denied. These included the claim that the contract will be offered to all roads under Federal control and it is believed most leading roads will sign it.

NEW YORK, Sept. 5.—All the special committees of the National Association of Owners of Railroad Securities in a joint meeting today, decided that the Federal contract with the railroads as announced in Washington still is "unsatisfactory and unacceptable," and called a meeting of the association's financial committee of seventy to be held in New York next Wednesday, to determine its future action.

Samuel Untermyer, counsel for the association, issued a statement outlining three objections to the contract. The first, he said, is that the railroad, "in advance of any knowledge of the extent to which their operations are to be abandoned, or their business and traffic directed," are required to accept compensation that was intended "only for the use of their property and not for the possible destruction of its value in the process of unification," agreeing that the government "may return a physical property, stripped of all business and connections."

The second, Untermyer said, is against the provision that railroads shall be compelled to finance additions, improvements, betterments and extensions for war and other purposes not beneficial to the companies, and take them over after the war, "on the basis of the inflated cost of these abnormal times."

PRIORITY LIST FOR THIS STATE

SAN FRANCISCO, Sept. 5.—Proposed compiling of a priority list of California industries to insure a possible supply of power in these firms during their entire efforts to war work, was announced by Albert F. Schwabacher, federal fuel administrator for California, here today.

Further curtailment of industries not wholly engaged in the manufacture of war materials may be expected at an early date in the interests of power conservation, Schwabacher said. A telegram giving this authority has been received from Washington by Schwabacher. It asked that power companies be directed to furnish lists of their customers to the fuel administration for priority action.

The priority list will follow the receipt of this information, Schwabacher said.

KORNILOFF ONCE MORE IS KILLED

LONDON, Sept. 5.—General Korniloff, formerly Russian commander-in-chief, has been killed by a shell in Yokotom, according to the Exchange Telegraph dispatch from Copenhagen, quoting from the Politiken.

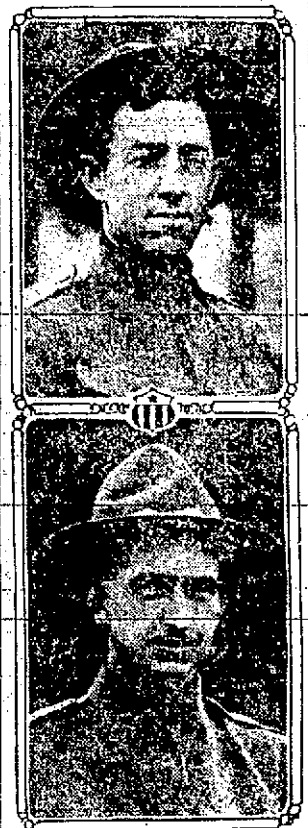

The death of General Korniloff has been reported many times since the overthrow of the Kerensky government.

SAN FRANCISCO, Sept. 5.—Following the introduction of evidence that also prepared a prayer printed in German, to be worn by American soldiers and which would commend them to mercy in the event of capture, Mrs. E. A. Sundmeyer, 50, spiritualist and native of Germany, was convicted in the United States district court here today of a violation of the espionage act. The prayer was said to have contained a statement that the soldier wearing it had been drafted against his will and would submit freely to the Germans.

Von Hertling Resigns as Chancellor

LONDON, Sept. 5.—Count George F. Von Hertling, the imperial German chancellor, has resigned, giving bad health as the cause for his retirement, according to the Geneva correspondent of the Daily Express, quoting a despatch received in Geneva from Munich, Bavaria.

TWO YOUNG MEN OF MADERA VICTIMS OF HUN MUNITIONS

Above—Charles Armistead. Below—Albert Orange.

(Special to The Republican.) MADERA, Sept. 5.—(L.A. Times.)—Orange and Charles Armistead are the only two Madera boys who have been wounded in action in France from this county. Both left here with the second draft contingent in September, 1917, and went to Camp Lewis for training. Orange was wounded about two months ago and lost a leg as a result of being hit by a fragment of a shell. Armistead was wounded August 6, but the degree of his wound is not known. Mrs. Ella Armistead, his mother, received a message merely stating that he had been wounded in action, and that details would be communicated to her later. In a letter home the soldier told of how his regiment went over the top in one of the recent engagements.

HOLLAND PROTESTS MERCILESS U-BOAT ATTACK ON SHIP

THE HAGUE, Sept. 5.—It is officially announced that the Dutch minister in Berlin has been instructed to protest vigorously against the "merciless action" of a German submarine in shelling a Dutch "tender" off Krommenho, North Holland, August 7, in which fishermen were killed, and demand compensation.

Official records do not show an attack by German submarines on a Dutch trawler off Krommenho August 7. The Germans, however, since the beginning of the war have frequently attacked Dutch shipping. The destruction of some of the vessels Germany has promised to indemnify Dutch owners after strong representations by Holland.

MEXICO MUST EXPLAIN WHY SHE HOARDS PAPER

LAREDO, Texas, Sept. 5.—An embargo was placed on all news print paper exports to Mexico here today. This was said to be in answer to a recent letter of President Carranza of Mexico, demanding that 10 per cent. of all news print paper imported be turned over to the Mexican government.

SLACKER RAIDING IN NEW YORK IS STOPPED; TO BE PROBED

Over-zealous Officials and Foreign Minister at Copenhagen Actively Pro-German

WILSON ORDERS INVESTIGATION

Johnson of California Is Among Those Demanding Correction

NEW YORK, Sept. 5.—It was announced shortly before midnight that Charles F. DeWoody, chief of the department of justice's bureau of investigations, had called off all slacker raids in New York and nearby communities at 8 o'clock tonight.

WASHINGTON, Sept. 5.—"Since the enactment of the selective service act," said an announcement by the department of justice, "agents of the department of justice have endeavored with the aid of state authorities in the apprehension of slackers. It is reported to the department that as a result of the recent efforts along this line in and about New York, approximately 1,500 men who had been unlawfully evading military service have been ordered to be inducted into the army, and over 14,000 others who were wanted by their local boards have been apprehended."

An official of the department of justice is proceeding to New York to inquire into abuses of their power in individual cases in connection with the apprehension of these men. Besides the apprehended in New York, it was said, some 500 had been rounded up in Chicago and sent to military camps.

President Intervenes

WASHINGTON, Sept. 5.—President Wilson has asked Attorney General Gregory to look into the circumstances surrounding the "black" or "round-up" in New York city this week, in which upwards of 10,000 men were taken into custody by agents of the department of justice, the military intelligence bureau, soldiers and sailors on suspicion that they were attempting to evade the selective service law.

The president's purpose was not made known. His request was transmitted after the matter had been vigorously debated in the Senate and Senator Simon of Utah, Republican, had offered a resolution proposing an investigation by the Senate military committee to establish who issued orders for the use of soldiers and sailors in the "round-up."

CHILE GUARDING INTERNED SHIPS

People Aroused by Efforts of Crews to Cripple Vessels

SANTIAGO, Chile, Sept. 5.—(By wire.)—The committee on public information in the attempt of German crews to destroy their interned ships in Chilean harbors Tuesday night has caused a wave of indignation to sweep through Chile. The plan to destroy the ships apparently was carefully planned as crews in three different ports acted simultaneously, using dynamite to destroy the machinery of their vessels.

The German steamers interned in Chilean ports number thirty-two while the total number of sailing vessels is fifty-seven. The tonnage of the steamers and sailing vessels aggregated 23,000.

Seven of the steamers were damaged. The government immediately took active measures to prevent depredations, ordering troops aboard the interned ships to maintain order.

DANISH OFFICIALS ENCOURAGING ATTACKS ON AMERICA

Government Papers Hold People of United States Up to Ridicule

WILSON ORDERS INVESTIGATION

Johnson of California Is Among Those Demanding Correction

WASHINGTON, Sept. 5.—German-inspired attacks on America appearing in Danish newspapers threaten the interruption of negotiations now pending between Denmark and the United States for a commercial agreement. This became known today after receipt of a cable from an American agent in Copenhagen.

For some time past, the report discloses, articles have been reprinted in the Social Democrat, a so-called government organ in Copenhagen, written by the former New York correspondent of the Berlin Tidende, Henry Holsten, ridiculing America. At war and bitterly attacking its motives and the people. Another Danish paper, the Politiken, unofficially accredited as a government organ, also has indulged in anti-American propaganda.

BOLSHEVIK AGENTS IN LONDON JAILED

British Public Indignant at Murder at Petrograd

LONDON, Sept. 5.—(By wire.)—The demands for reparation from the Bolshevik government for the sackings of the British embassy in Petrograd and the killing of Captain Cromie, the British attaché, has followed by the passing under arrest by the government here, of Maxim Litvinoff, the Bolshevik representative in London, and his staff.

LONDON, Sept. 5.—The sackings of the British embassy in Petrograd last Saturday involving the killing of Captain Cromie, the British attaché, has aroused intense indignation here. The London morning newspapers in their editorials denounce the act and in force the British government's action in the demand upon the Bolshevik government for reparation, and the threat of declaring outlawry for the members of the Soviet government should it fail to give complete satisfaction or should further acts of violence be committed against British subjects. The newspapers assure the government that it will have the support of the nation in enforcing the punishments of the perpetrators.

WASHINGTON, Sept. 5.—The murder of Captain Cromie in an attack upon the British embassy in Petrograd August 10 was officially reported to the state department today by United States Consul Haynes at Helsinki. Mr. Haynes said the entire personnel of the embassy was arrested and that similar arrests took place simultaneously in Moscow.

Bolshevik Changes

COPENHAGEN, Sept. 5.—Leon Trotsky, the Bolshevik minister of war, has been elected president of the Russian soviet government in a meeting of the soviet executive committee, according to a Berlin World Telegram dispatch from Moscow. The Danish paper, Wazette, has been elected chairman-in-chief of the Russian front.

Kerensky Family Now

AMSTERDAM, Sept. 5.—All the relatives of Alexander Kerensky, the former provisional premier of Russia, have been arrested by order of the Bolshevik extraordinary commission according to the Pravda of Moscow.

AUSTRIANS WIN PEAK IN ITALY

VIENNA, via London, Wednesday, Sept. 4.—The following official statement was issued today by the war office:

HUNS DESPERATELY STILL KEEP GRIP ON RHEIMS PIVOT

Haig's Men Rescue More Towns in Flanders—French Sweep North in Picardy

Take Thirty Villages

In the latest fighting in the region extending from the old Nevea sector to Soissons the French have reclaimed thirty villages from the Germans, have crossed the Somme canal at several points and are standing only a short distance from the important junction of Ham, with its roads leading to St. Quentin and La Fere.

On the south they have made further crossings of the Aisne river and are fast skirting the great, wooded region which acts as a barrier to direct attack on Laon, the strategic base of the German line. Somewhat at this stage of progress this morning shortly after dawn the French crossed the Aisne river at the village of L'Esclapart, and in the afternoon crossed it again at the village of L'Esclapart, and in the afternoon crossed it again at the village of L'Esclapart.

Eight-Mile Front on Aisne

The French and Americans are hard after the Germans between the Vesle river and the Aisne, and for more than eight miles, extending from Compe to Vailly-Argy, they have driven the enemy across the Aisne and are standing on the southern bank of the river. Eastward toward Rheims, almost up to the gates of the cathedral city, the German line is falling back northward. At the same point of the line in the vicinity of L'Esclapart, however, the Germans seem to be holding, evidently realizing that a permanent move forward would expose the grating of their line.

New Gains in Flanders

In Flanders the British have taken the town of Ploegsteert and positions southwest of Messines and northeast of Watten, and repulsed strong counter attacks launched against them.

ACTS OF HEROISM ACROSS SOMME

General Mangin's Forces Only Thirteen Designated as First Class on August 4

WITH THE FRENCH ARMIES IN THE FIELD, Sept. 5.—(By the Associated Press.)—The French have been driving more deeply into the enemy's lines on the Somme, below Peronne, the British have taken more territory, and immediately north and south of Peronne in the latter region having driven in the enemy's rearward for considerable distances.

The Germans have been violently bombarding the Americans at Flanders on the eastern end of the battle front in La Fere, but have not made any infantry attacks. More than 200 shells of them gas projectiles, have been sent into the American line by the enemy.

General Mangin's men crossed the Somme on Thursday night, during the night, occupying several points on the right bank. Further south the advance continued today with greater facility than yesterday. The passage of the Somme was effected after a series of hard fighting in which the French made further progress today east of the town of Ham.

Hidden among the bushes and in the hollows and the road beds of the branches of the river, the Germans were able to use their quick-firing artillery, compelling the pursuers to show up their positions. General Mangin's first line of attack was under the enemy's fire. The first bridges were destroyed, but after men gallantly reached the river, and after a fighting here, continued until past midnight and then bridges were thrown across the stream.

This work afforded numerous openings for acts of great heroism. Among these acts may be mentioned that of a French soldier who, notwithstanding the fact that the river was under the fire of German sharpshooters, undertook the task of swimming to the enemy's bank, carrying a message to the French command. During the trip across the soldier dived three times to escape the enemy's bullets, but he braved an even more dangerous foe while reaching back, being an excellent target for the enemy ambushed along the banks of the stream.

Finally, crossing the stream under the fire of the enemy, the French troops they attacked the enemy in the marshes and woods and in all sorts of other hiding places on the opposite bank and finally took the positions which were favorable to the French.

GERMANS GET ENTIRELY BEYOND AISNE

Strategic Retirement Carried Out Without Loss of Forces

ALLIES CAN SEE TO LAON

Enemy Is Expected to Take Refuge in Old Chemin des Dames

WITH THE AMERICAN ARMY ON THE AISNE FRONT, Sept. 5.—(By the Associated Press.)—With the exception of a few minor engagements, the Allies have been able to see the Germans off the Aisne. The American and French troops, who have followed the Germans back to the Vesle river, have taken the last of the Vesle villages from the Germans, and are now standing on the north bank of the river, and are now standing on the north bank of the river, and are now standing on the north bank of the river.

German Divisions Wasting Rapidly

The German divisions which have been driven back from the Aisne are now wasting rapidly. The German divisions which have been driven back from the Aisne are now wasting rapidly. The German divisions which have been driven back from the Aisne are now wasting rapidly. The German divisions which have been driven back from the Aisne are now wasting rapidly. The German divisions which have been driven back from the Aisne are now wasting rapidly.

NEMESIS FOLLOWS U-BOAT CAPTAINS

British List Commanders of 150 Brought to Death

LONDON, Sept. 5.—(By wire.)—Although the British government does not intend to adopt the practice of giving proof of official utterances made by its ministers, it has been thought desirable to publish the names of the German submarine commanders who have been disposed of, in order to substantiate the statement of Premier Lloyd-George in his speech of August 1, that at least 150 of these men have been brought to death.

The statement to be published tomorrow does not include the names of officers commanding German submarines put out of action.

A list of the 150 officers mentioned is as follows: Some of them are prisoners of war, and a few are interned in neutral countries where they took refuge. Among the officers named are:

Kapitan Leutnant Schreiber, who was in command of the U-20, torpedoed the Lusitania, in May, 1915. The U-20 was lost on the Danish coast in 1916, but Schreiber survived and was in command of the U-26, which was lost with all hands in September, 1917.

Kapitan Leutnant Hans Wageningen, who sank the steamer Belgian Prince, July 31, 1917, and drowned forty of the crew. Kapitan Leutnant Wilhelm Schreiber, who was in command of the U-24, was sunk with all hands about a fortnight ago.

Kapitan Leutnant Rudolph Schneider, who commanded the steamer Abaila, in August, 1915.

RECORD AIR TRIP

Toronto, Ont., Sept. 5.—What is believed to be the longest air mail carrying trip on the continent of North America was completed yesterday when Pilot E. C. Burton reached Ottawa from Toronto, having flown 510 miles.

HEAPED-UP EFFECT OF BRITISH GAINS

Last Germans Cleared
Out of Curve of the
Somme

WITH THE BRITISH ARMY IN FRANCE, Sept. 5. (By the Associated Press.)—The effects of the recent British successes are hourly becoming more apparent. The enemy is steadily, but surely, going back. Successive minor victories in Flanders, the application of sustained pressure in the battle zone south of the Scarpe, the exploitation of the advances north of Peronne and the steady bombardment from the British cannon are helping the general advance.

The local movement is being marked by the usual destruction of fire and explosions are reported from various points, especially the area in front of the Hindenburg line from the Baginieres to the southward, where the torch seems to have been freely used.

It looks as if the Germans here were going behind the lines with their great system of concrete dugouts and defenses. They are not in the least deterred by the fact that they are not at all unlikely, however, that the Germans will try to consolidate their line in the locality, with the Hindenburg line at some point farther south.

Along the banks of the Canal du Nord, in the region north and south of Valenciennes, the British are holding in some places, especially back of Moeuvres, the western spoil-bank, with numerous numbers of machine guns. As yet they have not been really attacked by the British in any force, it is not at all unlikely, however, that the Germans will try to consolidate their line in the locality, with the Hindenburg line at some point farther south.

It was through a somewhat anomalous situation that the Hindenburg line was forced back from the Baginieres to the south of Valenciennes. The old Hindenburg line itself does not run straight north and south. To the south of the Hindenburg line, the British have been steadily pushing the enemy back, and the enemy is now being forced back to the south of Valenciennes.

The fact that the British have been steadily pushing the enemy back, and the enemy is now being forced back to the south of Valenciennes. The old Hindenburg line itself does not run straight north and south. To the south of the Hindenburg line, the British have been steadily pushing the enemy back, and the enemy is now being forced back to the south of Valenciennes.

The fact that the British have been steadily pushing the enemy back, and the enemy is now being forced back to the south of Valenciennes. The old Hindenburg line itself does not run straight north and south. To the south of the Hindenburg line, the British have been steadily pushing the enemy back, and the enemy is now being forced back to the south of Valenciennes.

Long periods of fighting without the slightest respite, the annihilation of whole formations and the thorough amassing they have received have served to fix in the minds of the German troops. Every prisoner in his comments on the great battle seems to bear this out. Almost every diary and every letter taken from the Germans killed shows that the enemy troops on the western front have suffered from the loss, continued fighting has never before. A typical excerpt from an unposted letter says:

"We are in mortal danger every day. We cannot rest much longer. We cannot hope for further success. Our enemy is superior to us in numbers and everything else. Victory now is out of the question."

Into Equitable Building

NEW YORK, Sept. 5.—The government's drive against draft dodging was carried today by the Equitable building, a forty-three story building on lower Broadway, which is the home of the Federal Reserve Bank, the Liberty loan committee, the Bankers' Club and about 500 business firms employing 17,000 persons.

HOPE TO ARREST CHICAGO DYNAMITER

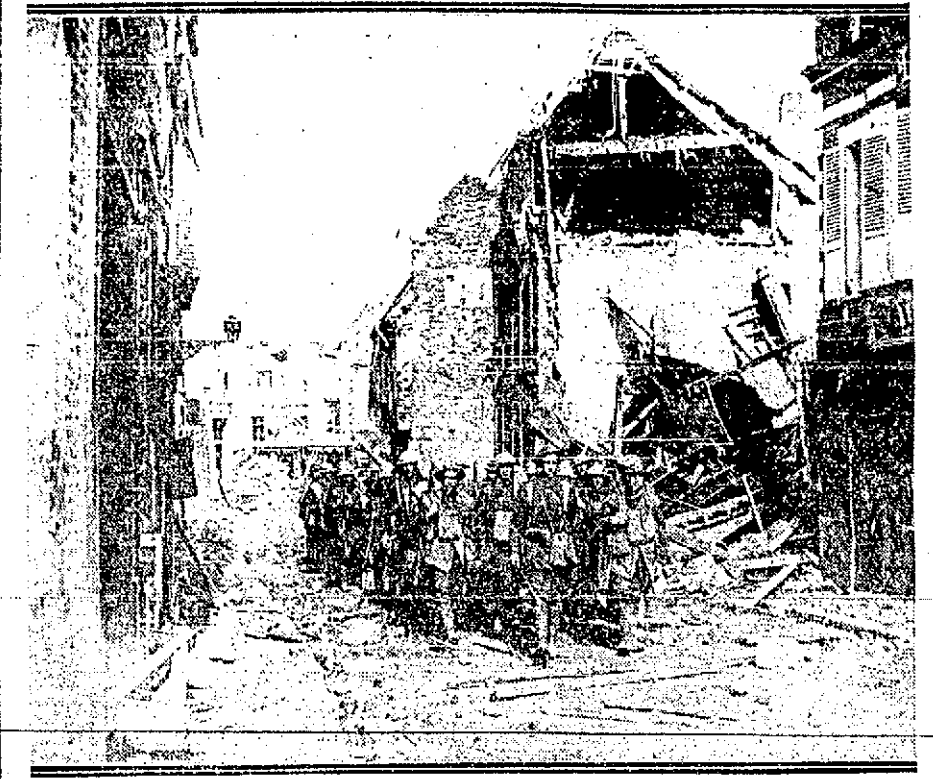

CHICAGO, Sept. 5.—The arrest within twenty-four hours of the man who placed a bomb in the entrance of the Federal building yesterday, killing four persons and injuring a score of others, was predicted tonight by Federal officials.

Two thousand government agents have been working on the case ever since the explosion and scores of persons known to be of radical tendencies have been arrested and questioned. Four theories are offered by the police to explain the outrage. First, that it was an I. W. W. plot to permit the escape of William D. Haywood, secretary-treasurer of the organization, as he was in the building at the time; second, that it was the work of a German sympathizer; third, that it was the work of an anarchist; and fourth, that it was the work of a "crank."

SHOULD BE ABLE TO BREAK EVEN

WASHINGTON, Sept. 5.—The average cost of wheat production was estimated at \$2.25 a bushel by T. H. Thompson, acting chief of the bureau of farm management, testifying today before the senate agricultural committee. Mr. Thompson said, however, that most of the wheat produced in the United States was sold at a further increase of 10 per cent. In costs, the farmers of the central West should be able to "break even" at the primary market price of \$2.25 fixed by the president for next year's crop.

PERONNE IS SECOND TIME REDEEMED BY BRITISH TROOPS

British Official. The British official photograph was taken last year when the British troops drove the Germans out of Peronne, the supporting base of the Huns in central Picardy. Peronne fell to the Germans again about ten days after the opening of the drive of March 21, 1918, and now as a result of General Foch's counter offensive, Peronne is again in British hands.

EASTERN SHIPYARDS WANTS COMMITTEE SHOW IMPROVEMENT TO NAME ASPIRANT

PHILADELPHIA, Sept. 5.—The failure of eastern shipyards to equal the record-breaking production of the Pacific Coast is due to the fact that new plants in the east are barely through the period of construction and organization and are not yet in full production.

The shipyards are still loaded up with requisitioned tonnage representing many different types of vessels, according to a statement made public today by Charles Fiez, vice president of the Emergency Fleet corporation.

Pointing out that many of the old established yards are working only on naval craft, Fiez emphasizes that eastern plants have shown a gradual improvement in the last month.

The daily summing of the statistics on the basis of percentage of assigned tonnage accomplished, shows the Great Lakes district leading by 25 per cent, with the California district and the northwest district next in line, Fiez said.

The New York district, the Baltimore and Philadelphia districts follow with shrinking percentages, while the manufacturing centers of England, the south Atlantic and the Gulf states follow in the order named.

CONTEST RAGING OVER TRADE BOARD

Opposition Prevents Gore
Amendment Coming
to Vote

WASHINGTON, Sept. 5.—The Federal Trade Commission was sharply assailed and vigorously defended in the senate today for its recent report to President Wilson recommending that the government take over control of the marketing of foodstuffs.

The debate, in which Senators Sherman of Illinois and Smoot of Utah led the attack on the commission, was precipitated by introduction by Senator Gore of Oklahoma of an amendment to the emergency agricultural appropriation bill, carrying out in the main the commission's recommendations. The amendment was withdrawn when it was found that consideration of it would further delay passage of the bill.

Senator Sherman declared the commission to be a self-constituted "prosecuting agency," made up of "business failures," while Senator Smoot of Utah charged that the commission was "a body of men who have been in the habit of making investigations in the manner of making investigations."

The Utah senator also criticized the business ability and experience of the commission members and declared their report on the marketing of foodstuffs was based "on prejudice and not on fact."

Senator Sherman, who was denied an opportunity to present his side of the case, countered the report, declaring it largely justified, the latter saying it revealed the "indifference of the government to the welfare of the people."

NEW YORK, Sept. 5. Marshall D. Fie, president of the Fisheries Children's fund, in a declaration to the New York board of directors of the organization, expressed the gratitude of the whole of France for the generosity with which American citizens so spontaneously to the rescue of our widows and orphans.

LOCK HAVEN, Pa., Sept. 5. Max Miller, pilot of the first airplane carrying mail from New York to Chicago, landed on the golf links of the Clinton Country Club, 300 miles from New York, at 10:25 this morning after a successful flight from New York city.

He remained in the air for one hour and then resumed his flight to Cleveland, the next scheduled stop.

REPORT KILLING OF ROMANOFFS

MADRID, Sept. 5.—A despatch was received here last night from London reporting the assassination of the former Russian emperor and her daughters, but in view of the steps taken by King Alfonso to obtain the transfer to Spain of the family of the deceased and murdered Russian monarch the report was treated with all reserve.

ELEVEN KILLED
UNDER A SLIDE

PORTSMOUTH, Va., Sept. 5.—Eleven laborers are reported dead and more than a score seriously injured as a result of a landslide which came about 100 feet down a hillside today.

The landslide occurred at a point where a new road was being built. The road was under construction and the landslide occurred while the workers were on the site.

The "Cool" Store

No matter how warm it is on the street our modern cooling system keeps the temperature within our store at a comfortable level at all times. Shop or rest here in cool comfort.

Central California's Largest Dept. Store

Gottschalk's

The Smartest of Suit Fashions

A Showing So Large and Varied
Every Preference Can Be Satisfied

Shrewd buyers will select their fall and winter apparel earlier this season than ever before. Especially is this true of woolen garments in view of the constant decrease of the woolen supply and the consequent increase in its cost. We were fortunate in having secured a goodly assortment of the new season's suits early, which are already on display here.

Your Inspection Is Invited

Scores of Attractive Styles
at \$29.50—\$36.50—\$49.50, etc

Suits that will satisfy the most discriminating, fashioned from the best of serge, poplin, velour, mixtures, etc., in all the most favored shades of the new season, trimmed in the most effective manner. Styles, colors and sizes for all.

Fall Skirts In Attractive Plaids, Stripes and Checks

\$4.98—\$8.98 to \$24.98

Fashion says that this is to be a skirt season and we are prepared to supply your every want with the finest assortment of woolen dress skirts we have ever presented at the beginning of a season. Scores of attractive styles in rich novelty plaids, stripes, checks and plain colors. Strictly all wool and truly remarkable values.

Popular Silks From Our Complete Stock We Have The Silks You Want at The Right Price

Wash Silks	Wash Silks	Satin de Luxe	Georgette
\$1.25 to \$2.75	\$1.75 to \$3.50	special \$2.25	Creme \$2.98

COUNTY SURVEYOR

4-MINUTE MEN TO CALL ON ALL TO REGISTER

Message From Provost
Marshal Crowder to Be
Read in Every Theater

All Men Eligible Under
18-45 Law to Be Urged
to Do Duty

"Register."
That is the message which the 45,000
Four-Minute Men of the Committee on
Public Information commenced to carry
to the people last night, at the special
request of Provost Marshal General Crowder.

In order that the country may become
informed upon the reasons for and the
purpose of the armed draft ages, ar-
rangements have been perfected through
national headquarters of Four-Minute
Men in Washington to turn this vast
force of organized oratory upon the vital
topic.

A bulletin of information containing
complete statistics concerning the fight-
ing man power of the country was pre-
pared in consultation with the provost
marshal general's office. An autographed
letter from General Crowder to the Four-
Minute Men explains the urgency of the
situation and calls upon this great army
of speakers to use their best efforts to
meet their part of it.

In this connection, the general says:
"We want to inspire every man with
the resolution to come forward at the
time appointed and do his duty."

"One of the most efficient ways to
communicate this information, stimulating
the keen sense of duty to be per-
formed, is the oral appeal, face to face.
This is where we are relying upon the
great organization of Four-Minute Men.
We believe that you can reach effectively
the millions of men who are due to come
forward on that day to register."

"The original registration brought for-
ward 3,656,000 men. This time our calcu-
lations give us every reason to believe
that the number to be included reaches
13,000,000. It will be America's greatest
effort to complete its army. Your part
will be an important one, and I earnestly
invoke your assistance and call upon you
to put your best skill into the task."

It has been announced by Frank A.
Wiley, secretary of "Four-Minute Men"
of Fresno county, that the following men
have been assigned to speak at the vari-
ous theaters during the next six days,
commencing tonight:

FIRE DEPARTMENT GETS BIG CHECK

Showing their appreciation for the good
work done by the fire department at the
Kutner-Goldstein fire lately, that firm has
sent a substantial contribution to the
firemen's relief fund, as the following
letter will show:

Mr. W. C. Berkholtz, Fresno Fire De-
partment, Fresno, Cal.:

Dear Sir:—Enclosed herewith we beg to
hand you a check for \$250 for the fire
department in recognition of the efforts
of the department in preventing the de-
struction of our establishment August 9.

Very truly yours,

KUTNER-GOLDSTEIN CO.

By L. M. Mendelsohn.

MEXICAN BECOMES FEDERAL PRISONER

Declaring that he would rather fight in
the Mexican army than in the American
and having failed to fill out his question-
naire submitted by the examination board
at Riverside, Fortino Hernandez, a ranch
hand, was arrested by George Hudson,
special agent of the department of jus-
tice yesterday. Instead of being sent to
jail he will be inducted into the army.

Dr. McArthur, superintendent of the
board of investigation, is charged with
having caused men to leave jobs where
he had been employed.

BOUTAIN HEARS FROM TRENCHES

Patrolman R. G. Boutain of the police
department was in receipt of a published
letter written by a brother, Albert
Boutain of Miles Point, Va., in which
he gives a brief but interesting account
of life in the trenches, which he says
are not as bad as most people think
and also of his experiences in the hos-
pital where he was taken after being
wounded in the leg.

Mr. Boutain, who enlisted a year ago,
went across in September. He is a
member of the 103rd machine gun com-
pany, 26th division.

BIKE RIDERS ARRESTED.

J. C. Casanovi, Manuel Flores and Jack
Heberman were arrested by Officers Koll
and Borlher yesterday for violating the
motor act by riding bicycles on the side-
walks. The arrests were made in accord-
ance with a vigorous campaign being
conducted by the department to stop the
nuisance.

N. E. Tinker was also arrested by Of-
ficer O'Brien yesterday for violating the
motor act by leaving the engine of his
car running and not fully complying with
the parking rules, when he left his car
at J and Mariposa streets.

FINISH BOND PAYMENT.

Through the payment of \$5.00 in the
third Liberty bond loan, the fire depart-
ment has just finished paying off its sub-
scription to the loan, according to Chief
W. C. Berkholtz. As the department
consists of sixty-two men, this means a
\$100 bond for each.

MOTOR HURTS WOMAN.

Margaret Fuller, 328 Fresno street, was
taken to the emergency hospital yester-
day for slight injuries received when the
motorcycle she and her brother-in-law,
R. F. Watrous, were riding collided and
threw her off.

MEXICAN LABORER HURT.

Theodore Dominguez, a Mexican laborer,
sustained several fractured ribs in a fall
into a trench while working for S. N.
Clark at Glenn and Calaveras streets yester-
day. He was taken to the St. W. W.
Wills' office for attention and later re-
moved to Burnett sanatorium.

HOTEL VENDOME, SAN JOSE.

Ideal room: golf privileges at Coun-
Club; large swimming pool; ten-
nis; free garage. Excellent table.
Management, Chester W. Keller.

SWIM

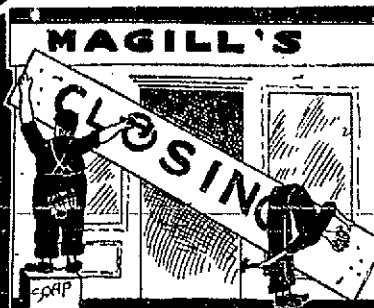

At the Fresno Natatorium: cleanest
and clearest bath on the coast, 1735
North Eye street.

VERY BEST ICE CREAM

Benjamin J. Spang, Philadelphia.NEW BOUNDARY
OF TIME CHANGE

WASHINGTON, Sept. 5.—Changes in the standard time zones of the United States, moving the lines slightly westward, are recommended in a tentative report made public today by the Interstate Commerce Commission. The primary object of the changes, which become effective next January, is to give the commission authority to adjust the time of the country to the time of the continent.

The boundary between the Mountain and Pacific zones would begin at the Canadian border near Blackfoot, Idaho, crossing the Utah line near Weston, through Salt Lake City and west to the Utah-Nevada boundary which would follow from a point from Nevada to enter Arizona through Yavapai county cross the Santa Fe railroad at Seligman and follow the Colorado river through the state to the Mexican border.

DEATH CLAIMS
FRESNO WOMAN

Mrs. Elizabeth M. Kaprielian, 451 Poplar avenue, died in a San Francisco hospital following an operation yesterday.

She was born in Turkey 57 years ago, and had resided in Fresno county for the past sixteen years, part of the time in Fowler.

Mrs. Kaprielian is survived by one daughter, Mrs. Josephine, two sons, Leo and George, and a brother, H. G. Nafizian of Chicago, Ill., and two sisters, Mrs. M. Nazdizian of Fresno and Mrs. A. Manoukian of Fowler.

Funeral services will be conducted from the Pacific Armenian church at 2 o'clock tomorrow, Sept. 7. Burial will be in the Mount Hope cemetery.

JAPANESE CHILD
DROWNS IN DITCH

A wonder of accidental drowning was reported on the death of Yoshio Nishimoto, the 3-year-old child of Mr. and Mrs. G. Nishimoto, who lost his life yesterday while wading in an irrigation canal with other children near his home in Olean.

According to the testimony at the inquest conducted by Coroner Bean, it was believed that the child had fallen into a deep hole while away from his playmates. The body was recovered later.

Funeral services will be held at the Buddhist church at 1 o'clock today. The body will be cremated.

BURGLARS BUSY

Two out-of-town burglars reported to the police department yesterday consisted of the thefts of two typewriters from the German high school, and a sudden safety razor, cans of sardines and chicken heads and a box of crackers from the home of C. P. Cross at Priant.

SHOPLIFTER AT FOWLER

Manuel Manelena, a Mexican, was arrested at Fowler and lodged in jail by Constable Ford yesterday on a charge of petit larceny. He is accused of shoplifting.

GIVEN SIX MONTHS

Miller Lynn was sentenced to six months in the county jail by Judge Briggs on a charge of larceny. He was found guilty of having stolen \$100 from another lodger in rooming house on Mariposa street.

Andrews Kiss and S. P. Sarnap both paid \$5 apiece for disturbing the peace. H. W. Price was given ten days in jail for vagrancy.

DEATH SENTENCE

SAN FRANCISCO, Sept. 5.—Sentence of death imposed upon Edward S. Keyes, convicted of the murder of Leonard Berwick, 11 years old, a Santa Ana newspaper, was affirmed by the state supreme court here today. Keyes pleaded insanity. According to the evidence Keyes entered the home into his home where he killed him and dismembered the body.

U. S. W. VETERANS.

BALTIMORE, Md., Sept. 5.—San Francisco was selected as the place for holding the 1918 national convention of the United Spanish War Veterans by the delegates of the organization at their annual reunion here today. The time was not announced.

FOR DRY ZONE
AROUND PLANTS

WASHINGTON, Sept. 5.—The Senate adopted without a roll call a resolution by Senator Kellie of Minnesota authorizing the President to establish "dry" zones about mines, shipyards, munitions plants and other war plants. The resolution now goes to the House.

The Kellogg resolution is a clause in the pending national prohibition bill before the Senate, but its author said that its enactment might be delayed and that the separate resolution was necessary to deal immediately with conditions resulting from liquor sales to war workers.

Stefansson Urges Breeding of Musk Ox on Extensive Scale

JAMES N. Y. T. STEFANSSON, Arctic explorer, who is in Dawson, on route to the Arctic, predicts that the opening of the Arctic lands will result in the breeding of the musk ox on an extensive scale.

Such predictions, the explorer said, would result in making an area rich in many European nations an intensely productive of civilized foodstuffs. This region would be able to sustain a large population and afford locally produced foods for sections in which can be developed extensive arctic mineral areas, now dormant because of the enormous cost of importing food.

One of the explorer's chief plans is to make a dash over the Arctic, he says, to find out how valuable that land is for raising musk oxen. He believes the animal is capable of domestication on a scale to make the whole project non-problematic to the United States and Canada. The explorer's expedition is expected to leave for the Arctic in the near future.

Stefansson believes that within twenty years or less the airplane will be used to the Arctic to the center of the continent that all sorts of passengers will be established and the Arctic coast, for three or four months every year, will become one of the greatest summer resorts of the world.

Coronation Gulf, Banksland, Melville Island and other regions, including the region of the White Eskimos, are the most desirable places for the summer resorts of the future, he believes.

The explorer says that the mystery area of a million square miles around the Pole still needs exploration. He claims that on his recent trip he has explored the longest trip in history across Arctic ice. He traveled 800 miles in eight months, whereas in their dash to the Pole others covered only 450 miles in a round trip of three months on the ice. The explorer says that the Eskimos used the sleds which he used in his expedition. The Eskimos used the sleds which he used in his expedition. CHECKING SYSTEM ON U. S. ARMY CONTRACTS

Work Max Thelen of California Has Undertaken for Government

Expensive Experiments of Early War Being Corrected

Special Correspondence.
WASHINGTON, D. C., Aug. 25.—One of the most important tasks undertaken by the War Department in the gigantic scheme of reorganization into which it has entered during the past few months has been the new Division of Purchase, Storage and Traffic, in which Max Thelen, former president of the California Railroad Commission, occupies the post of Surveyor of Contracts.

This division was created for the purpose of protecting the interests of the Government in the purchase of supplies for the army out of the most vital departments of the Nation's war activity. When the United States entered the great world conflict it was confronted with the immediate task of purchasing war supplies and materials on a vast scale, and in the absence of an organized machinery adequate to cope with the staggering magnitude of the job the early work was performed of a rather haphazard character. This inevitably brought criticism, charges of irregularity, favoritism and extravagance, and an occasional suggestion of scandal in the letting of contracts. To the credit of the War Department it must be said that most of this criticism was unfounded, and that the tremendous responsibility of acquiring billions of dollars worth of supplies and materials which was so suddenly thrust upon the Department was met with splendid courage and energy.

But the Secretary of War quickly perceived the necessity for a carefully organized and scientifically managed department of purchase and supplies, and after combing the country for a man of expert training and established ability for the job of running this department he selected Railroad Commissioner Thelen.

The first step in the organization of the new division was the establishment of boards of contract review, one in each of the eight supply-bureaus of the army, representing ordnance, quartermaster, engineers, chemical warfare service, construction division and the medical corps. These review boards were charged with the function of passing upon all contracts for supplies and materials, amounting to \$5,000 or more, and also all cost-plus contracts. The boards also exercise a review jurisdiction over all recommendations to award contracts to other than the lowest bidder.

Each board consist of from five to seven members, one of whom is always a representative of the financial section. It is the primary duty of the Board to see that the interests of the Government as to price, terms and conditions is thoroughly safeguarded in each contract let. A superior board of contract review has been formed as a sort of appellate body, sitting over

IRVIN COBB, CENTER OF ARMY GROUP SOMEWHERE IN FRANCE

Brig. Gen. Harries, Irvin S. Cobb, the well-known humorist and war correspondent, Admiral Wilson, Admiral Moreau of the French navy, Admiral Green and Cap. —, at memorial exercises in France.

all of the bureau boards, and passing upon questions of purchase and supply policy. General Hugh S. Johnston, director of purchase and supplies for the army, is chairman of this superior board, which is composed of a representative of each of the Bureau Boards and the Surveyor of Contracts, Mr. Thelen.

Cost Plus System.
One of the first and most important actions of the superior board of review was to declare that the policy of the War Department was opposed to letting the much-discussed "cost plus" contracts, except in cases where they were virtually unavoidable.

A bulletin issued by the Purchase, Storage and Traffic Division, over the signature of Major General Cook, deals with the subject of "cost plus" contracts as follows:

1.—Wherever possible, fixed price contracts shall be used. Where it is clearly to the advantage of the Government that a cost-plus contract be used, a cost-plus fixed maximum contract is preferable to a cost-plus percentage contract.

2.—No cost-plus contract shall hereafter be made unless it has first been approved by the Supply Bureau's Board of Review.

3.—No cost-plus contract shall be approved by a supply bureau board of review unless the making of cost-plus contracts under the particular class of circumstances involved shall first have been approved by the superior board of review.

The Supply Bureau also issued another bulletin in relation to cost-plus contracts requiring that in each instance where they were used the proposed expenditure of the contractor for labor and materials must be approved in advance by an officer of the bureau. These orders obviously, were designed to correct conditions which had prevailed, namely, charges of extravagance and waste in connection with cost-plus contract work for the Government.

When the Supply Department undertook its new work of standardizing army purchases it discovered instances where the Government had expended as much as two or three million dollars in the purchase of increased manufacturing facilities for contractors only to find, after the money had been spent and the construction work done, that the title to these government-financed facilities was vested in the contractor. In other words the Government had made him a present of several million dollars worth of new plant.

To guard against any repetition of the fallacious expenditure, the Supply Department issued an order that in all cases where increased manufacturing facilities are constructed at the expense of the government, or where the contractor is authorized in the price paid by the government, the contract shall provide that the title to the facilities shall vest in the United States.

"The contractor may agree to take such facilities at a fair valuation, but the diminution of the profit which he otherwise would make," says this order. "Where title to increased manufacturing facilities vests in the United States the contractor shall provide that the title to the facilities shall vest in the United States."

To Stop Favoritism.
It is of great importance to prevent favoritism in the awarding of contracts, and an order was issued requiring every contract for the purchase of supplies to be put in the hands of the War Department with the assurance of a contract to the lowest bidder.

No such person," says the order, "shall directly or indirectly participate in the negotiation or closing of any purchase contract. Transaction with any such person."

SAYS SUBMARINE IS CAMOUFLAGED

GLoucester Mass., Sept. 2.—The German submarine operating among the fishing fleet off the Nova Scotia coast is camouflaged with large wave-like lines according to Captain Manuel Quintros of the American fishing schooner Rush, sunk by the U-boat a week ago. Captain Quintros, who, with the nineteen members of his crew, reached here tonight, said that the unmarked craft was painted dark gray and that for several feet above the water line was a disquieting work of visible camouflage. Captain Quintros and three of his men were on the enemy craft for three hours and had a lengthy conversation with its commander, who spoke English and Portuguese. They told the fishermen that the American magazines and newspapers on the U-boat and he accused the newspapers of distorting the truth about the submarine. He said that when his vessel left Germany it was under instructions to sink fifty three-masted ships but that because of the attitude of the American press orders had come to the U-boat by wireless to sink everything in sight.

CZECHO-SLOVAKS TAKE VLADIVOSTOK

VLADIVOSTOK, July 2.—(Correspondence of the Associated Press.)—Three thousand Bolshevik Red Guards entered the city of Vladivostok on the morning of the 2nd inst. and took possession of the city. The Red Guards were met by the city authorities and the city was handed over to them. The Bolsheviks then proceeded to disarm the city's military forces and to take possession of the city's government buildings. The city was then declared a Bolshevik stronghold. THE WORLD WAR

BEHIND BRITISH LINES IN FRANCE.—(Correspondence of the Associated Press.)—More than 24,000 pounds of bombs were dropped in a single day recently by pilots of the British air force on objectives behind the German lines.

In a week military establishments at twelve places were attacked by air 28 times by the British air force. Captured documents showed that the German army communications had been seriously interrupted at several points.

A report from Metz showed that after a recent raid when the gas works and a number of other important military objectives were heavily bombed, a part of the civil population was sent to Luxembourg.

A prisoner stated that while he was in Valenciennes, most of the important factories in that city were damaged by bombs from the British air force. The city was so high up that they were not visible from the ground. One large factory with four or five chimneys was almost completely demolished.

Continuing the dispatch says: "There was very little fighting done by Juvigny itself, but in the neighborhood the fighting resolved itself into general infantry work."

Woodcraft and ground craft, proved invaluable to the Americans. They outpointed the Germans in working their way through without losing touch with their own lines and in attacking the enemy. It was in consequence of their craft and good shooting that the American captures reached such a high figure, 550 Germans being rounded up.

It was the 104th German regiment that tried to bar the way of the Americans and the men of this regiment have nothing for which to reproach themselves. They left many dead in those dark valleys and only surrendered when they saw no other option. The enemy's measures to hold this plateau proved how seriously he must have regarded his loss.

Shortly after dawn Sunday morning, when the Americans advanced, they encountered a heavy machine gun fire. The enemy's resistance was broken and he had decided that the plateau could not be held. Even then it seemed for a short time as if the Americans might have to pay dearly for what was left of the valley, but the men, flushed with victory, showed even greater determination than on the day before, and after four hours, during which no forward movement was possible, more cheerful news began to come to the Americans. Before noon the struggle reached a point where one could breathe freely. For all tactical purposes of the future the Juvigny plateau may be considered the Allies' position.

IN MEMORY OF NEWLANDS.

CARRANZA DEFENDS COURSE IN WAR

Declares Rights of Mexico Have Been Protected Against All

MEXICO CITY, Sept. 2.—President Carranza, in his address to Congress last night on the occasion of the convening of the twenty-eighth session of the legislative body, dwelt at length on internal and foreign questions.

He said it was the determination of Mexico to maintain the strictest neutrality in the world war and that this neutrality had been rigidly observed in the past. He said the administration had upheld Mexico's right to sovereignty in the situation brought by the presence of American warships in Mexican waters, and the settlement in the United States of citizens of Mexican origin. He also defended the course of the republic in the launching of presidential decrees for the carrying out of article 27 of the constitution providing for the nationalization of all lands.

The neutrality policy of Mexico, the president said, had been adhered to by a similar portion of the Mexican citizenry and the government had met the various critical situations with complete regard to national honor, Mexico's honor and sovereignty had equally been upheld against acts directed against Mexican residents in the United States by the American authorities in the presence of Mexican consuls in the United States, and finally in the Nogales incident in the latter part of August, which the president asserted was merely a local disturbance.

The principal points in the president's address concerning Mexico's foreign policy were that no country can, in any form or for any motive, interfere with the internal affairs of another, but all must observe the principle of no intervention; that no foreigner, because of his foreign citizenship, can pretend rights superior to those of the citizens of the country in which he resides, and that legislation must be based on regard to Mexican citizens and foreigners.

The diplomatic breaks with Cuba were characterized as being without precedent in diplomatic history. They had resulted in the absence of friction in a misunderstanding between the two republics.

Petroleum Question.
The Mexican government, the message continued, has answered satisfactorily and maintained with firmness its rights against the American claims to the petroleum of the United States, Great Britain, France and Belgium with regard to the refusal to confirm the proposed commercial agreement between Mexico and the United States, known as the Nelio-Mitcher agreement, was given as the inclusion in the proposed agreement of clauses contrary to Mexico's rights, by the inclusion that the region was considered as a reference, apparently included in measures which were deemed contrary to Mexico's sovereignty.

With regard to the other government departments, the president asserted that under the new plan for the reorganization of the country, with the president as active commander in chief and the nation divided into different military zones under generals of divisions, opposition to the government had been broken down.

Reporting on the treasury department, the president said financial conditions, despite the war, were improving. The revenue from export taxes on oil for the nine months ending May 31, 1918, were given as \$3,600,000 pesos. Metals yielded 7,500,000 pesos, and other articles \$5,200,000 pesos.

RED CROSS PLANS ALL DAY MEETING

CHLOVIS, Sept. 2. — Mrs. W. J. Howell, chairman of Chlovis Public Schools, has been elected president of the Chlovis Public Schools Association. Mrs. Howell is a well-known business woman and has been very active in the Chlovis community. She has been elected to the position of president of the Chlovis Public Schools Association for the year 1925-1926. Mrs. Howell is a member of the Chlovis Public Schools Association and has been very active in the Chlovis community. She has been elected to the position of president of the Chlovis Public Schools Association for the year 1925-1926.

The Philippines' Vin Diesel, 27, the young man successfully passed the mental test for admission to West Point Military Academy, but the physical test showed a slightly athlete heart. He turned in a running of 17.5 seconds at school, and holds a record for one mile and is confident that his heart may have been a little overstimulated and that he will outgrow it.

Miss Regina Chelster will leave in a few days for Pasadena, where she will attend high school, living with her father's sister.

**KICK FROM MULE
INJURES FARMER**

Anderson, a pioneer cattle man, whose residence is in this city, was kicked on the face by a mule while going over his ranch in the Stratmore district.

that yesterday evening, and for the time it was considered his condition was critical. Mrs. Anderson was summoned from another of the Anderson properties near the Tule reservation but by the time she arrived Mr. Anderson had regained consciousness. He is recovering rapidly.

KERN WILL SELECT TWO NEW JUDGES

BAKERSFIELD, Sept. 2.—With county-wide interest in the Transoceanic ship race which is between Tom Runk and Barclay McCowan, the fall election will also have two spirited races for superior judge, both of them.

Howard A. Penize to become state corporation commissioner will be followed by an appointment that will hold over until the next general election. The resignation of Judge Milton T. Farnum last July to enter a law firm in St.

W. Kaye. Thus Kaye will run for a short term of two years and the successor to Peairs will have a race held the four-year term yet remaining.

Candidates for the Judgeships are looming. Already entered are Judge

Rayne, 62, of Alameda, Cal., formerly an M. A. Kohn. It is said J. W. Wiley, former state code commissioner, who has been at San Francisco to undergo a surgical operation on one of his eyes, will be a candidate for the appointment to succeed Judge Peairs.

ILLINOIS SENATOR ATTACKS WILSON

House, Baker and Red
field Fall Within His

Flail's Length

President Wilson and his administration, and particularly Colonel E. M. House, the President's personal friend and adviser.

"I denounce," he said, "a politicalocracy covertly engaged in when it wishes to in the current of country."

Secretary Baker was referred to a "one who thinks of the war as three thousand miles away, talks about it

quantity production of combat airplanes, delays three months the draft law amendment of 1915, opposes universal military training and so. Washington's soldiers at Valley Forge were drunkards and chicken thieves only to be declared by executive proclamation to be "worthy of credit."

Regarding Secretary of Commerce Richard B. Fisher, Senator Sherman said he had made "some sparkling contributions" including the shocking information that high cost of living was

"Ford By Order"

denouncing what he described as socialistic plans of "a coterie of politicians gilded and played by a group of theorizing, intolerant intellectuals." Senator Sherman continued:

On all questions related to liberty, Compton is practically proscribed. Bureseon controls the physical agencies for the communication of thought and McAdoo the railways and counties.

finances. Strip off the mask of alleged government ownership and behind it the revealed political ownership and control of Gompers, Burles and McAdoo for partisan purposes, he used relentlessly to elect partisan now and in 1920 a President."

RED SOX DEFEAT CUBS IN OPENER, 1 TO 0

SMALL CROWD SEES BABE RUTH AND VAUGHN IN PITCHING DUEL

Interest Is at Very Low Ebb and Contest Is Marked by Little Enthusiasm; Game Itself Is Without Any Remarkable Features

CHICAGO, Sept. 6.—One of the smallest crowds which ever turned out for a world's series opening game saw Boston defeat Chicago, 1 to 0 today. The battle was between Jim Vaughn and "Babe" Ruth.

These two giants fought it out all the way and although Ruth allowed six hits to his opponent's five in an errorless game, the "break" went to the invaders.

The efforts of the war were everywhere apparent, especially in the temper of the crowd, which, largely local, saw the home team drop the first game without a protest. There was no cheering during the contest, nor was there anything like the usual umpire bawling.

"Black" O'Day, of the National League, who officiated behind the plate, was caught munching a bag of peanuts after the game.

"We were not roasted once during the game by players or spectators," he said.

Today's attendance was precisely 19,274. Rain caused postponement of the first scheduled game for yesterday. Today the downpour had ceased and the grounds were comparatively dry. The sun showed fitfully and there was a stiff, chill breeze from the north. No seats were occupied in the upper tier of the second floor of the grandstand, and the right section of the stand was practically empty. In the left section there were many vacant chairs. A number of boxes also were without occupants, and in the bleachers the three lower rows all around the field were vacant.

War taxes, the high cost of living, curtailed railroad service at advanced prices, the weather, the curtailed season, and over all, the shadow of the war were said to account for the indifference of the public.

The dyed in the wool fans were there, but not the general public. The left field bleacher space usually given over to the "virtues" of a certain chewing gum admonished the crowd to "keep the gum in old glory," and the right field space commanded "buy war saving stamps and do it now." At intervals six airplanes from the war exposition of the lake front

*Batted for Pick in ninth.
*Ran for Deal in ninth.

Summary—Sacrifice hits, McInnis, Hollacher, Strunk. Left on bases—Americans, 5; Nationals 8. Bases on balls—Off Ruth, 1; off Vaughn, 3. Hit by pitcher—By Ruth (Flack). Struck out—By Ruth, 6; by Vaughn, 4. Time 1:50. Umpires—O'Day, first; Hildebrand, at first; Kiern at second; Owens at third.

reminded the spectators that baseball is not an essential industry. Even the brass band was cut down to a war band of twelve pieces and it attracted most attention when it played the "Star Spangled Banner." On this occasion players and audience stood respectfully. Fred Thomas among them. Thomas, third baseman for Boston

George "Babe" Ruth Premier Hurler of Boston Americans

was in the Red Sox uniform by grace of a fourteen days' furlough from the Great Lakes Naval Training Station. He stood at the rigid salute of the Jackies while the hymn was played. One thrill was granted the crowd aside from the main and that was what happened to the aspirations of the ticket speculators. They had unlimited seats which they attempted to

COMPARATIVE FIGURES ON OPENING 1918 GAME AND LAST YEAR

CHICAGO, Sept. 5.—War made its hand felt in attendance and receipts of the first game of the world's series.

The attendance today of 19,274 was nearly 13,000 less than the crowd which jammed Comiskey Park for the initial contest between the Cubs and White Sox a year ago. The receipts—\$25,274—were less than half the amount taken in for the first game a year ago, as the prices this year were reduced, the choice box seats selling for \$3, as compared with \$5 in 1917.

The figures on the opening game of today and a year ago:

1918—Attendance, 19,274. Receipts, \$25,274. Players' share, \$16,587.92. Each club's share, \$5,922.64. National commission's share, \$2,763.50.

1917—Attendance, 32,000. Receipts, \$73,152. Players' share, \$48,502.06. Each club's share, \$21,166.37. National commission's share, \$7,343.29.

tion of the board devoted to the batter's field to work.

One-handed spear by Scott of Vaughn's hot grounder provided the one spectacular feature of the contest. It was a beautiful play, but at the time the Cubs were not threatening. The whole nine innings failed to produce a hit for extra bases, nor any real test of speed for the outfielders.

George Whiteman, Boston utility-outfielder, started in the outfield for Boston, and doubtless prevented the only man of the invaders to make two hits, one of which figured in Boston's winning run.

Vaughn's momentary weakness in the fourth cost him the game. Shean, the first man up for Boston, walked when the Sub twirler attempted to work the corner of O'Day. Strunk, who followed, flied to Vaughn on an attempted sacrifice, and Whiteman delivered his second blow, sending Shean to second. Paskert's quick return prevented the Red Sox's second baseman from tiffing third. McInnis, who followed, flied to Vaughn, who fanned out to Agnew.

No runs, no hits, no errors.

Second Inning—First Half. Vaughn pitched with a single to center. It was a fast grounder between Hollacher and Pick. McInnis sacrificed, Vaughn to Merkle, placing a nice hint close to the line. Whiteman went to second. Scott flied to left and a strike fouled into the stands for the second strike, then flied to Flack.

Thomas' grounder bounced high in the air but a fast play retired him. Merkle to Vaughn.

No runs, one hit, no errors.

Second Inning—Second Half. Ruth's control seemed not the best his first two pitches to Deal were called strikes and then Deal grounded, Ruth to McInnis.

Killefer was applauded when he came to the bat. He grounded out, Shean to McInnis. Vaughn also directed a pair of apples from the mound to Deal and to Agnew.

No runs, no hits, no errors.

Third Inning—First Half. Agnew waited till the call was three balls and two strikes and then fouled out to Killefer. Ruth was called when he came up. He drove to left, but Paskert stumbled but flied to Vaughn.

Recovering quickly and "captured" the ball. Hooper caught a curve on the end of his bat and drove it safely to left. Hooper went out stealing. Killefer to Hollacher.

No runs, one hit, no errors.

Third Inning—Second Half. Flack singled to short center, the hit dropping between Shean and Strunk. Hollacher sacrificed, Thomas to McInnis, the veteran first baseman making a good catch of a wide throw. Flack went to second on the play. Mann grounded out, Shean to McInnis. Flack taking third. Paskert up, Paskert grounded out, Scott to McInnis.

No runs, one hit, no errors.

Fourth Inning—First Half. Vaughn lost control and passed Shean. Strunk bunted a pop fly to Vaughn. Whiteman made his second hit, a looping drive which cleared the infield. Shean went to second. Shean scored on McInnis' hard single to left. Whiteman moving to second. Scott bunted a pop fly which Deal caught on the run. Whiteman barely scrambling back to second in safety. Thomas fanned, swinging heavily at the third strike.

One run, two hits, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

OPENING GAME IN DETAIL

First Inning—First Half. Hooper was cheered as he walked to the plate. Vaughn's first pitch was a strike. Hooper bunted the second strike down the first base line and was out. Merkle to Vaughn.

Shean took two strikes and then dropped a Texas leaguer in right. Strunk forced Shean, Deal to Pick, the Chicago second baseman losing a chance for a double play by a momentary fumble.

Strunk tried to go down on a short passed ball and was thrown out. Killefer to Hollacher.

No runs, one hit, no errors.

First Inning—Second Half. Flack fanned, the third strike being called when it shot over the outside corner, shoulder high.

Hollocher grounded out. Shean to McInnis.

Mann sent a duplicate grounder at Shean, flied to left, batted over the second baseman's head for a single.

Paskert singled sharply to left and Mann went to third.

Paskert taking second on the throw to the far corner.

Merkle ran his string to three and two and then sacrificed, flied to center. It was a fast grounder between Hollacher and Pick.

McInnis sacrificed, Vaughn to Merkle, placing a nice hint close to the line. Whiteman went to second.

Scott flied to left and a strike fouled into the stands for the second strike, then flied to Flack.

Thomas' grounder bounced high in the air but a fast play retired him. Merkle to Vaughn.

No runs, one hit, no errors.

Second Inning—Second Half. Ruth's control seemed not the best his first two pitches to Deal were called strikes and then Deal grounded, Ruth to McInnis.

Killefer was applauded when he came to the bat. He grounded out, Shean to McInnis. Vaughn also directed a pair of apples from the mound to Deal and to Agnew.

No runs, no hits, no errors.

Third Inning—First Half. Agnew waited till the call was three balls and two strikes and then fouled out to Killefer. Ruth was called when he came up. He drove to left, but Paskert stumbled but flied to Vaughn.

Recovering quickly and "captured" the ball. Hooper caught a curve on the end of his bat and drove it safely to left. Hooper went out stealing. Killefer to Hollacher.

No runs, one hit, no errors.

Third Inning—Second Half. Flack singled to short center, the hit dropping between Shean and Strunk. Hollacher sacrificed, Thomas to McInnis, the veteran first baseman making a good catch of a wide throw. Flack went to second on the play. Mann grounded out, Shean to McInnis. Flack taking third. Paskert up, Paskert grounded out, Scott to McInnis.

No runs, one hit, no errors.

Fourth Inning—First Half. Vaughn lost control and passed Shean. Strunk bunted a pop fly to Vaughn. Whiteman made his second hit, a looping drive which cleared the infield. Shean went to second. Shean scored on McInnis' hard single to left. Whiteman moving to second. Scott bunted a pop fly which Deal caught on the run. Whiteman barely scrambling back to second in safety. Thomas fanned, swinging heavily at the third strike.

One run, two hits, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

No runs, one hit, no errors.

No runs, one hit, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

No runs, one hit, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

No runs, one hit, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

No runs, one hit, no errors.

Fourth Inning—Second Half. Merkle drove a high fly to Hooper.

Pick fanned, offering weakly at the third strike which was low and wide. Deal put up a high fly which Hooper had no trouble in capturing.

No runs, no hits, no errors.

Fifth Inning—First Half. Agnew went out. Deal to Merkle. Ruth was again cheered when he came to bat. Vaughn worked carefully and fanned the big Boston pitcher. The feat drew the first pop cheering from the shivering crowd. Hooper grounded out, Vaughn to Merkle.

No runs, no hits, no errors.

Fifth Inning—Second Half. Killefer flied to Vaughn, fouled twice, then swung at a curve and missed for the third strike. Flack was hit on the head but showed no ill effects, as he went to first. Hollacher flied to Strunk.

No runs, no hits, no errors.

Sixth Inning—First Half. Vaughn fouled into Whiteman's hands. Flack fouled twice, then swung at a curve and missed for the third strike. Flack was hit on the head but showed no ill effects, as he went to first. Hollacher flied to Strunk.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

Sixth Inning—Second Half. Shean ran his string up to three and two and then let the third go by. Strunk drove a sharp grounder to Vaughn, who threw him out to Merkle. Flack captured Whiteman's foul fly, after a short run.

No runs, no hits, no errors.

GRAND CIRCUIT RESULTS

HARTFORD, Conn., Sept. 5.—Chlorine, the Canadian chestnut stallion, driven by Tommy Murphy, took first money in the Hartford Oak Horse purse for 2:12 (trip). Next Sixty was the third day of the circuit meeting here today. The chestnut stallion was the first two hours by their mares over Alma Farnes, driven by Townsend Ackerman. Hollander was beat Alma Farnes in a close third heat and took second money.

The 25th trotting event was won by Hershey, the bay mare by Hiram, driver Rodney Ford, the mare up from a trip getaway in the first heat and came in the third day of the circuit meeting here today. The chestnut stallion was the first two hours by their mares over Alma Farnes, driven by Townsend Ackerman. Hollander was beat Alma Farnes in a close third heat and took second money.
